## Table of Contents

<b>Sr. No.</b>	<b>Contents</b>	<b>Pages</b>
1.	Performance Evaluation of Wireless Communication Systems under Combined IQ Imbalance and Phase Noise: An EVM Analysis  <i>Subhendu Ganguly, Rohan Bansal, Pankaj Kumar</i>	1-5
2.	Advancements and Challenges in Designing High-Temperature Electronics for Aero Engine Controls and Health Monitoring  <i>Dr. Arijit Das, Amitava Goswami</i>	6-10
3.	Design and Performance Analysis of a Single-Phase Multifunctional Integrated Converter for Electric Vehicles  <i>Bani Dayal Dhir, Ravi Kamlesh Kumar, Yogendra Singh Pawar</i>	11-15
4.	Loss Analysis and Efficiency Optimization of Half-Bridge DC-DC Converters in High-Current and Low-Voltage Applications  <i>Dr. Pravin Saxsena, Vijay Kumar Gangal</i>	16-20
5.	Packaging and Interconnection Technologies of Power Devices Challenges and Future Trends  <i>Dr A. Prem Kumar, Janendra Nath Srivastava, Akhilesh Kumar</i>	21-26
