GENERAL INSTRUCTIONS

The OMR Answer Sheet has an Original Sheet and a Candidate's Copy below it glued together at the top. Candidate should not separate the pages of the Answer Sheet. The Items marked by the candidates in the original OMR Sheet will be carried over to the candidate's copy in the form of Impressions. Hence while marking in the Original Sheet, Candidate should ensure that the pages are aligned properly and enough pressure is given, so that the markings made in the Original Sheet against each item are exactly reproduced in the Candidate's Copy.

The Answer Sheet has two parts - "Basic Data" on the left side and "Answers" on the right, with a thin perforation in between, length wise.

All entries in the Answer Sheet are to be made in the Original Sheet only.

Fill in the boxes and darken the appropriate bubbles using a **black/blue ink ball point pen**.

Fill in all the entries on the "Basic Data" part before beginning to answer questions on the "Answers" part.

Entries regarding the Question Booklet No. should be filled in only after receiving the Question Booklet.

At the end of the Examination, the Candidate will hand over the OMR Answer Sheet to the Invigilator, who will first tear off the original sheet from the Candidate's copy. The Candidate's copy will be handed over to the candidate. Thereafter the Original sheet will be separated along the perforation in the presence of the Candidate.

WARNING

- **Pen Marking once made is final.**
- **Trying to erase an already marked bubble might leave a hole (tear) on the OMR Sheet or make dark smudges which will give an improper result with OMR reader.**
- **Trying to darken an already erased bubble will also lead to an unpredictable result.**
- **In the case of Improper bubbling/erasing/whitening etc, the reading of the OMR Machine will be taken as final and any arguments to defend such actions will not be entertained.**
- **To avoid any such misinterpretation, make sure that only one bubble corresponding to the correct response is darkened against each question. All other options should be left blank. Start darkening the bubble only after reading the question thoroughly and deriving at the correct response.**
- **Use of white fluid or any other correction fluid to erase the pen marking once made is not permitted.**
